Cedar Flow Automation

Automation that ships in weeks, not quarters

1. Company Overview

Cedar Flow Automation is a consultancy based in Beirut, Lebanon, founded in 2024. We help small and mid-sized businesses in the Levant and the Gulf replace spreadsheets, manual follow-ups and disconnected tools with practical automation, ERP systems and AI agents that their teams actually adopt. We work remotely and on-site, in Arabic, English and French.

2. Mission

To make small businesses run like well-oiled machines. We believe automation should come with a fixed price, deliver visible results quickly, and be simple enough that the people doing the daily work are happy to use it.

3. Services and Pricing

Service	What you get	Price and timeline
Workflow Audit	One-week review of how your business really runs: process mapping, interviews, and a prioritized automation roadmap.	$1,500 fixed. 1 week.
ERP Implementation (Odoo)	Setup of sales, inventory, purchasing and invoicing; data migration; staff onboarding.	Starter package from $6,000. Typically 4 to 6 weeks.
AI Agent Development	Custom agents for customer support, invoice and purchase-order checking, and order intake.	Pilot from $4,000. Typically 3 to 4 weeks.
Training & Support	Hands-on team training and an ongoing support retainer (up to 8 hours of work per month).	Retainer $400 per month.

All prices are in US dollars. Prices marked "from" depend on scope, which is confirmed in writing before work begins.

4. Team

Name	Role	Background
Layla Haddad	Co-founder and CEO	Former operations consultant with 10 years of experience helping distribution and retail companies streamline operations.
Omar Nasr	Co-founder and CTO	Software and machine-learning engineer; leads AI agent development and integrations.
Rima Khoury	Head of Delivery	Odoo specialist; runs ERP implementations and team training.

5. Unique Value Proposition

Fixed prices. No surprise invoices: scope and price are agreed before work starts.

Results within 30 days. You see working results within 30 days of project kickoff.

Audit credit. The Workflow Audit fee is credited toward any implementation project booked within 60 days of the audit.

Built for adoption. We train your team and design around how they already work.

6. How We Work

Step 1 - Discover. A free 30-minute intro call to understand your goals.

Step 2 - Audit. The one-week Workflow Audit produces a roadmap ranked by impact and effort.

Step 3 - Build. We implement the highest-value items, in an ERP, an AI agent, or both.

Step 4 - Train and support. We onboard your team and offer an optional monthly support retainer.

7. Who We Serve

Retail, distribution, clinics, light manufacturing and professional-services firms with roughly 5 to 100 employees.
